(Sept 2002-Jul 2004)

## TECHNICAL SKILLS

HTML5  
CSS  
SCSS  
Bootstrap  
PHP  
OOP PHP  
Slim  
JavaScript  
React  
MySQL

I am a hardworking and motivated full stack developer with excellent communication and interpersonal skills. I am looking for an opportunity to work as part of a team and apply myself to new challenges to develop my technical skills further. I've been immersed in tech, working with Digital Skills bootcamps for the last few years, and was drawn towards software development through my enjoyment of problem solving and the curiosity of understanding how web applications are created. In my spare time I like walking, wild swimming and days at the beach. I am a keen tap dancer and have recently started paddleboarding.

## PROJECTS

### Food Delivery React App

As a Scrum team, we created a React front-end for a food delivery application utilising an existing RESTful API. Sass and Bootstrap were implemented to help create the UI we were aiming for from the provided designs. Modern JavaScript practices were followed throughout including using the fetch API alongside React Hooks to create performant rendering.

**Github**

### Project Management API

Using an existing React front-end, we built a backend API using object oriented PHP. We utilised the Hydrator Entity design pattern to fetch data from the SQL database, created a Custom Exception to handle invalid inputs and unit tested our Service Classes using PHPUnit.

## WORK EXPERIENCE

### Project Coordinator

West of England  
Institute of Technology

(Oct 2021 -  
Dec 2022)

Supporting the West of England IoT to successfully deliver a variety of projects across the IoT Partnership. One of my main duties was to lead the roll out of the Department of Education (DfE) Digital Skills Bootcamp Wave 2 and 3 contracts, liaising with the IoT education partners - monitoring performance against targets, providing reports and data to DfE and the IoT Partnership Board

### PA to the Principalship

Weston College

(Oct 2011 - Oct  
2021)

I worked as part of a team of Personal Assistants and supported a variety of the senior corporate management team, including the Principal and Chief Executive Sir Paul Phillips.

### Various Administrative and Customer Service roles

Bristol

(Aug 2002 - Oct  
2011)
